On the Subject of Bitmaps

Over 18 quintillion combinations, only some of them actually matter.

- A combination of 64 pixels will appear on the grid.
- Each pixel can be black or white.
- There are 4 buttons underneath the grid labeled 1, 2, 3, and 4.
- Figure out which button to press by follow the steps below.

- 1. If the majority of the pixels on the top half of the grid are black, press '2'.
- 2. Otherwise, if the majority of the pixels on the **entire** grid are white, press '4'.
- 3. Otherwise, if the majority of the pixels on the bottom half of the grid are white, press '1'.
- 4. Otherwise, if there are 16 or fewer white pixels on the right side of the grid, press '2'.
- 5. Otherwise, if the majority of the pixels on the top left of the grid are white, press '3'.
- 6. Otherwise, if there are 17 or more black pixels on the left side of the grid, press '1'.
- 7. Otherwise, if the serial number contains a vowel, press '3'.
- 8. Otherwise, if there are 3 or more batteries on the bomb, press '4'.
- 9. Otherwise, press '2'.
